

STRUCTURAL COLUMN PROTECTION

PROTECT-IT™ MAXI

DON'T TAKE THE RISK!

*A damaged structural column can be dangerous
and very expensive to repair.*

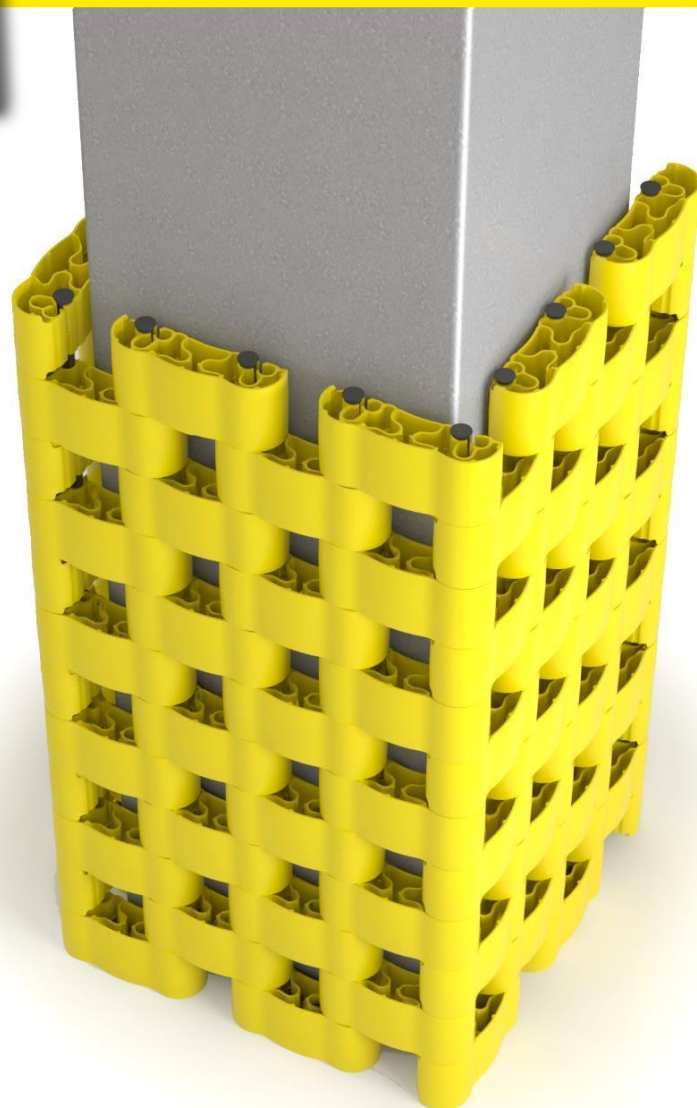

Photographed in Germany

**a revolutionary *space saving* structural
column guard designed to minimize vehicle
impact damage.**

PROTECT-IT™ MAXI

- ✓ Unique patented modular design
- ✓ Sold worldwide = proven performance
- ✓ All sizes derived from one SKU = R's saved!
- ✓ Expandable, fits an infinite combination of sizes, shapes.
- ✓ SQUARE, ROUND, RECTANGULAR, "H" & "I" BEAMS
- ✓ FULLY TESTED - FEA and "real world"
- ✓ Reduces Column Damage = Rand's saved!
- ✓ Improves Workplace Safety = Reduces risk of collapse
- ✓ Provides even impact absorption all directions.
- ✓ Compact = minimal intrusion into building space
- ✓ Wraps around the column = no extra fasteners needed
- ✓ Impact resistant in cold stores to -40 degrees
- ✓ Simple installation = instructions in box
- ✓ Installed in minutes = low labour cost
- ✓ Low repair cost = replace only damaged components
- ✓ Delivery cost is a fraction of our competitors = R's saved
- ✓ Made from ultra high impact absorbing polymers

We recommend regular rack inspections in
accordance with local Health & Safety Laws.
Replace all damaged products immediately.

✓ PASSES IMPACT TESTS

No column damage to an 8" (200UC_59) column after a 5952lb
(2.7 ton) forklift impact at 3.75mph (6km/hour).

Each box contains 20 segments and 8 connecting pins.

Protect-it MAXI boxes needed for 1000mm high protection

RECTANGULAR & SQUARE COLUMNS - Width						mm
75-140	150-300	300-475	475-650	650-800		
1	1.5	2	2.5	3	75-140	Depth
	2	2.5	3	3.5	150-300	
		3	3.5	4	300-475	
			4	4.5	475-650	
Halve the number if you only require half the height				5	650-800	

ROUND COLUMNS - Diameter						
75-150	150-275	225-375	350-500	425-600	480-700	575-800
1	1.5	2	2.5	3	3.5	4
